

FAQ – ERASMUS+ STUDY ACCEPTANCE

I was selected for both Erasmus+ Study and the Overseas Exchange programme. Can I accept both?

Yes, you can accept both placements.

However, keep in mind that the two mobility periods cannot overlap, so carefully consider the starting semesters, checking the academic offer and academic calendar of each host university.

If the semesters overlap, you will have to renounce one of the two mobilities.

How do I accept my placement?

Students who have been assigned an Erasmus mobility can accept their placement after receiving a confirmation email from **noreply@unipv.it**.

I haven't received the acceptance email. What should I do?

First, check for any updates published on the website and look in the Spam folder of your university email account.

If there are no updates and you still cannot find the email, contact **outgoing.mobility@unipv.it**.

I have accepted the placement. How do I know if the procedure was successful?

If the procedure was successful, you will receive an automatic confirmation email from **noreply@unipv.it**.

I accepted the placement but didn't receive the confirmation email. What should I do?

First, check your UNIPV email Spam folder.

Verify that you followed the procedure correctly by carefully reading the instructions attached to the allocation confirmation email, which are also available on the website.

If you believe you followed all the steps correctly but still haven't received the confirmation email, contact **outgoing.mobility@unipv.it**.

I'm not sure whether to accept the placement. What are my options?

There are no alternative options. In cases of uncertainty, we recommend accepting the placement anyway. If you miss the deadline, your lack of response will be considered a formal withdrawal, and you will not be able to participate in the program. You may apply in a future call.

If I refuse the placement, can I be assigned to another one?

No. Reassignments are not possible. You can only reapply in the next call for any remaining spots, which will only be for mobility during the second semester.

I've been assigned to a full-year placement. Can I shorten the duration?

You can indicate your intention to shorten the period during the acceptance process by selecting the appropriate checkbox. If you decide to shorten, select your starting semester from the dropdown menu.

The acceptance procedure asks me to indicate my mobility period. How do I do that?

You can select the period from the dropdown menu.

- If your period is for one semester, select either **Autumn** or **Spring**.
- If it is for a full year, select **Full Year**.
If you have a full-year placement but want to shorten it, choose either Autumn or Spring and check the box to request a reduction.

Detailed instructions for correctly accepting the placement are available.

If I choose Autumn as my mobility period, am I required to leave in the first semester?

It is assumed that anyone selecting Autumn has already considered this carefully. Indicating the departure period now allows us to nominate you to the host institution within the required deadlines.

Students selecting the first semester will be nominated first. If you later decide to postpone your departure to the second semester, you must inform outgoing.mobility@unipv.it.

What does "fewer opportunities" mean?

This refers to specific cases that allow you to apply for additional financial support. The full list can be found in the call for applications. The International Mobility Office may request supporting documents at a later stage.

I have a low ISEE. Should I select the "fewer opportunities" checkbox?

No. "Fewer opportunities" only covers the specific situations listed in Annex I of the call. Students with an ISEE between 0 and 50,000 do not need to submit any request for additional grants.

I accidentally selected the "fewer opportunities" checkbox. What should I do?

Report the issue to outgoing.mobility@unipv.it. The selection cannot be changed, but your report will be recorded.

I accepted the placement, the process was successful, but I don't see all the completed steps in my personal area. What should I do?

Nothing. The important thing is that you received the confirmation email from the system. That means your decision has been correctly recorded. No further action is needed at this stage.

I can't accept the placement due to technical issues. What should I do?

Immediately report the problem to outgoing.mobility@unipv.it. Please describe the issue in detail and, if possible, include screenshots. **Do not wait until just before the deadline, as timely support cannot be guaranteed.**

If I accept the placement, can I later withdraw?

Yes, you can withdraw later by sending a message to outgoing.mobility@unipv.it.

I declined the placement but changed my mind. What can I do?

Nothing. Once the procedure is completed, no changes can be made. You can reapply in a future call.

I accepted the placement. What should I do next?

Wait for the host institution to contact you with information on how to register. In the meantime, you can visit the "**After the selection**" and "**Travel Information**" sections of our website to find useful information about the next steps.

Based on the mobility period you selected, your data will be sent to the host institution according to its own timeline and procedures. Students departing in the first semester will be nominated first, followed by those leaving in the second semester.
